Member Senate of Pakistan

PRESS RELEASE

Islamabad (June 16th 2005): Prof. Khurshid Ahmad has expressed his serious concern about the health of Dr. A. Q. Khan – one of Pakistan’s greatest national asset. We pray for his health and long life.

“I am sure every Pakistani is deeply disturbed on the deterioration of his health and is praying Allah subhanuhu-wa-taala to protect him and give him complete and quick recovery”, Prof. Khurshid Ahmad stated.

“The political leadership which has adopted a policy in subservience to America should also rethink its position. The present health crisis of Dr. A.Q. Khan is definitely a result of the acute mental pressure and virtual emotional torture to which he is being subjected to and those who are guilty of it will have to bear the responsibility for this threat to the health and life of our national hero and benefactor”, he concluded
